MERI college engineering and technology

2020 - Present

8.7 (7thsem)

Course  
- B.tech CSE

Higher Secondary (12th)  
Columbia Foundation Sr Sec school

88%

Subjects  
- Computer Science ,  
Physics ,Maths , Chemistry,  
English, Physical Education

## EXPERIENCE

### AppSquadz

July 2023-September 2023:Front End Development Intern

Throughout my internship at Appsquadz, I engaged deeply with a diverse array of web development technologies—HTML, CSS, Bootstrap, JavaScript, jQuery, and AJAX. Real-world projects like Educrypt, Videocrypt, and CRM provided a platform to practically apply my knowledge, fostering effective problem-solving skills through the resolution of complex technical challenges and debugging issues.

A major highlight was the reinforcement of the significance of teamwork, effective communication, and a steadfast commitment to delivering high-quality work. This experience has equipped me with invaluable skills and insights that I am eager to apply in my future professional endeavors, grateful for the growth and discovery it brought to my journey.

### Novative Solutions

October 2023 -Now : Front End Development Trainee

Currently employed as a Trainee at Novative Solution in Vue.js and React, I am deeply involved in creating new modules, optimizing code structures, and efficiently handling multiple projects. Actively engaged in diagnosing and remedying software irregularities.

I'm actively involved in a React project , further broadening my skill set and contributing to our diverse portfolio of technologies. Embracing a mindset of continuous improvement, I am committed to refining our software development processes, driving efficiency, and fostering growth in the dynamic landscape of software engineering.

## SKILLS

React

VueJS

MongoDB

ExpressJS

Flutter

Bootstrap

JavaScript

AJAX

jQuery

Git

HTML

CSS

## PERSONAL PROJECTS

### ZSYNC PRO

Engineered a cutting-edge website redefining time management and task organization with React

[https://aakashgaur03.github.io/ZSYNC\\_PRO/](https://aakashgaur03.github.io/ZSYNC_PRO/)

### Portfolio Website

Created Portfolio Website using React , CSS, Bootstrap

<https://aakashgaurportfolio.000webhostapp.com/>

### Landing Page

Created Landing Page using HTML, CSS, AJAX, JavaScript, Bootstrap

<https://landingpage-by-aakashgaur.000webhostapp.com/>

### SkyCast

Created Weather Website using HTML , CSS, Bootstrap, JavaScript
