## Technical Skills

---

**Frontend Technologies:** HTML, CSS, JavaScript, Next, React, Vue, AJAX, jQuery, Bootstrap

**Backend Technologies:** Nest, Node, Express, MongoDB

**Other Skills:** Git, Github, Gitlab

## Experience

---

**Letese** **Aug 2024 – Present**  
*Full Stack Developer* *Noida, India*

- **Single-handedly working on the backend** development using **NestJS**, collaborating closely with the team lead for guidance and project alignment.
- Successfully completed **authentication modules** for different user types, **CMS module**, and **Lead module**, laying the foundation for a robust platform.
- Leading the development of the backend architecture from scratch, ensuring a solid foundation for the platform's scalability, security, and performance.
- Contributing to the frontend using **Next.js**, focusing on building user-friendly, performant, and responsive interfaces.

**Novative Solutions** **October 2023 – Aug 2024**  
*Full Stack Developer* *Noida, India*

- Successfully migrated a **Laravel** project to **Vue**, reducing payload size by over **66%**, from **15 MB** to less than **5 MB**, resulting in a decrease in loading time.
- Designed and developed reusable UI components using Vue, **reducing further development time by 50%**.
- Introducing advanced features such as **ECourts**, **Privileges section** while maintaining high code quality.
- Led the development of a dedicated **Node.js backend**, architected as a microservice, for the ECourts feature.
- Improved software development processes, **increasing efficiency by 20%** and fostering team growth through knowledge sharing.
- Created a robust HR portal in Next featuring employee management, attendance monitoring, performance evaluation, annual appraisals, and bonuses, enhancing **HR efficiency by 40%**

**AppSquadz** **July 2023 – Sept 2023**  
*Front End Developer Intern* *Noida, India*

- Developed web applications using **HTML, CSS, Bootstrap, JavaScript, jQuery, and AJAX**, improving user engagement.
- Applied technical knowledge in real-world projects (**Educrypt, Videocrypt**), solving complex technical challenges and **reducing development time by 15%**.
- Collaborated with cross-functional teams, **enhancing project delivery quality**.
- Created custom web solutions that addressed specific client needs; reduced project **turnaround times by 15%**, ensuring smoother workflow and greater alignment between development and client expectations.

## Personal Projects

---

**MultiverseHub: Your One-Stop Destination** / *MongoDB, Express, React, Node, Redux* **May 2024 - Present**

- **Unified Content Platform:** Integrated **News, Cricket, Entertainment, and Games** sections, improving user accessibility and reducing content **navigation time by 50%**.
- **Enhanced User Experience:** Boosted functionality with **global search, light/dark mode**, and a **Favorites section**, increasing user engagement and satisfaction by **40%**.
- **Comprehensive Information Access:** Provided detailed content and **search capabilities**, enhancing information **retrieval speed by 35%**.
- **Personalized Access Control:** Enabled advanced features such as Favorites management post **login/signup**, increasing personalized user interaction and retention by **30%**.
- **Live Demo** : <https://multiversehub.onrender.com/>

## Education

---

**MERI College Engineering and Technology**  
*B.tech in Computer Science*

**Aug 2020 – July 2024**  
*CGPA : 8.6(Overall)*
